

SkyFireEnergy

Solar Energy Systems

Solar Electric System Installation Journeyman Electrician and Crew Leader

SkyFire Energy is looking for a well-rounded individual to become part of our solar electric team in Penticton, BC. This individual will be self-motivated, energetic, personable, and excited to work as part of a fast growing company in the solar industry. SkyFire Energy is a Certified B Corporation and employee owned company with offices and staff in 4 locations across Western Canada. This will be a permanent full-time hourly position. Work will be throughout the BC interior so out of town work is expected and common.

Primary duties include:

- Ensure crew and job site safety
- Lead quality installations based on system design and specifications
- Installation of solar electric systems for residential and commercial buildings and ground mounts
- Commissioning of PV systems and completion of quality control and commissioning documentation
- Management of installation crews

Requirements:

- Certified Journeyman Electrician
- Must be able to lift solar modules, batteries or other heavy items
- Comfortably able to lift 60lbs, climb ladders and work on roof tops in varying weather conditions
- Must be willing to work out of town on some projects for durations of 2 days to 2+ weeks
- Class 5 driver's license with a clean driving record is required

Considered and Asset:

- Solar training and/or solar installation certification (SAIT, NAIT, NABCEP, SEI, etc.)
- Class A or B FSR designation
- Solar installation experience
- Fall protection training/certification
- CSTS and ESTS training/certification
- WHMIS 2015 certification

Provided:

On and off site training

Competitive hourly wage

Health and dental benefits

Please apply by email with **cover letter and resume** to jobs@skyfireenergy.com
