

SkyFireEnergy

Solar Energy Systems

Project Manager (Regina) – Permanent, Full Time

SkyFire Energy is looking for a Project Manager to become part of our solar electric team in Regina, SK. This individual will be self-motivated, energetic, personable, and excited to work as part of a fast-growing company in the solar industry.

Primary Duties include:

Planning and implementation of residential solar project installations working with both individual clients and construction companies

Schedule, direct and support field teams to project completion

Organize equipment and products required for project installation

Create, schedule and project time lines for clients and home builders

Implement and manage change when necessary to meet project outputs

Project budget management

Obtain electrical, building and development permits as required

Email and phone correspondence with customers, suppliers, field crew, office staff and home builders

Ensure quality assurance upon project completion

Education and Experience requirements

Knowledge of the construction and or solar industry

2+ years experience in project or construction management

Experience in strategic planning or change management

Proficiency in Microsoft Office and Google Suite

Structural Engineering degree, experience and APEGS registration a significant asset but not required.

Competencies

Critical thinking and problem solving

Excellent decision-making and leadership capabilities

Conflict resolution experience

Adaptability

Able to tolerate stress

Ability to work in a team environment with many different personalities

High level of organization

Possession of a valid Class 5 driver's license with a good driving record

Candidates should be able to demonstrate a passion for renewable energy and the renewable energy industry

Benefits of SkyFire Employment

The successful candidate will enjoy:

- A competitive salary (for the solar PV industry)
- Opportunity to own shares in SkyFire Energy as an employee shareholder (after 1 year employment as per SkyFire Employee Share Ownership Plan)
- Comprehensive dental and health benefits (after 6 months)
- 3 weeks paid vacation
- Diverse, challenging and interesting opportunities
- The opportunity to work among highly qualified, industry leading professionals and assist in expanding our team in Saskatchewan
- The difference of working for a Certified B Corporation
- Ability to bring a well-behaved dog to work with you

SkyFire invites interested and qualified candidates to apply for this position. **Please respond with a cover letter stating your availability (estimated start date) and what qualities and characteristics will help to ensure that you will thrive in this role, along with a resume to jobs@skyfireenergy.com as soon as possible.** We are looking to fill this role immediately.

We sincerely thank all candidates for your interest in employment with SkyFire Energy. However, only those candidates shortlisted for an interview will be contacted.

About Us

As Western Canada's most experienced solar PV firm (18 years), we have been responsible for designing and constructing many of Western Canada's largest and most complex projects. With extensive expertise in design and engineering we seek to add value to our projects and for our customers first and foremost.
